

MURALS & BESPOKE SURFACES

Selected works in hand-painted murals, sculpted reliefs and site-specific decorative art.

MAKING SPACE MEMORABLE.

Every commission begins with the character of the room - its light, rhythm and material palette. Artwork is developed in dialogue with clients and designers, then translated by hand across walls, panels and architectural surfaces.

*Illusion. Texture. Ornament.
Story.*

LANDSCAPES THAT OPEN THE ROOM.

Perspective, foliage and layered colour extend the architecture beyond its physical edge.

Narrative walls become part of the room rather than decoration placed upon it.

SITE-SPECIFIC MURAL / RESIDENTIAL

A QUIET GARDEN, INDOORS.

Painted branches trace the panel rhythm while birds and blossoms bring warmth to a restrained interior.

A completed wall and its hand-painted magnolia detail, shown at their edited proportions.

A DOORWAY BECOMES ART.

A circular composition anchors the fluted portal: twin peacocks, sunflowers and dense foliage balanced as a single emblem.

DETAIL / COLOUR & LINE

LIGHT IS THE FINAL MATERIAL.

Low-relief surfaces shift through the day, allowing shadow to reveal the work gradually.

SEVEN HORSES / HAND-SCULPTED WALL RELIEF

ROCK RELIEF

GANESHA RELIEF

ORNAMENT WITH MEANING.

Figurative work is composed to hold both narrative detail and architectural presence.

CARVED PANELS

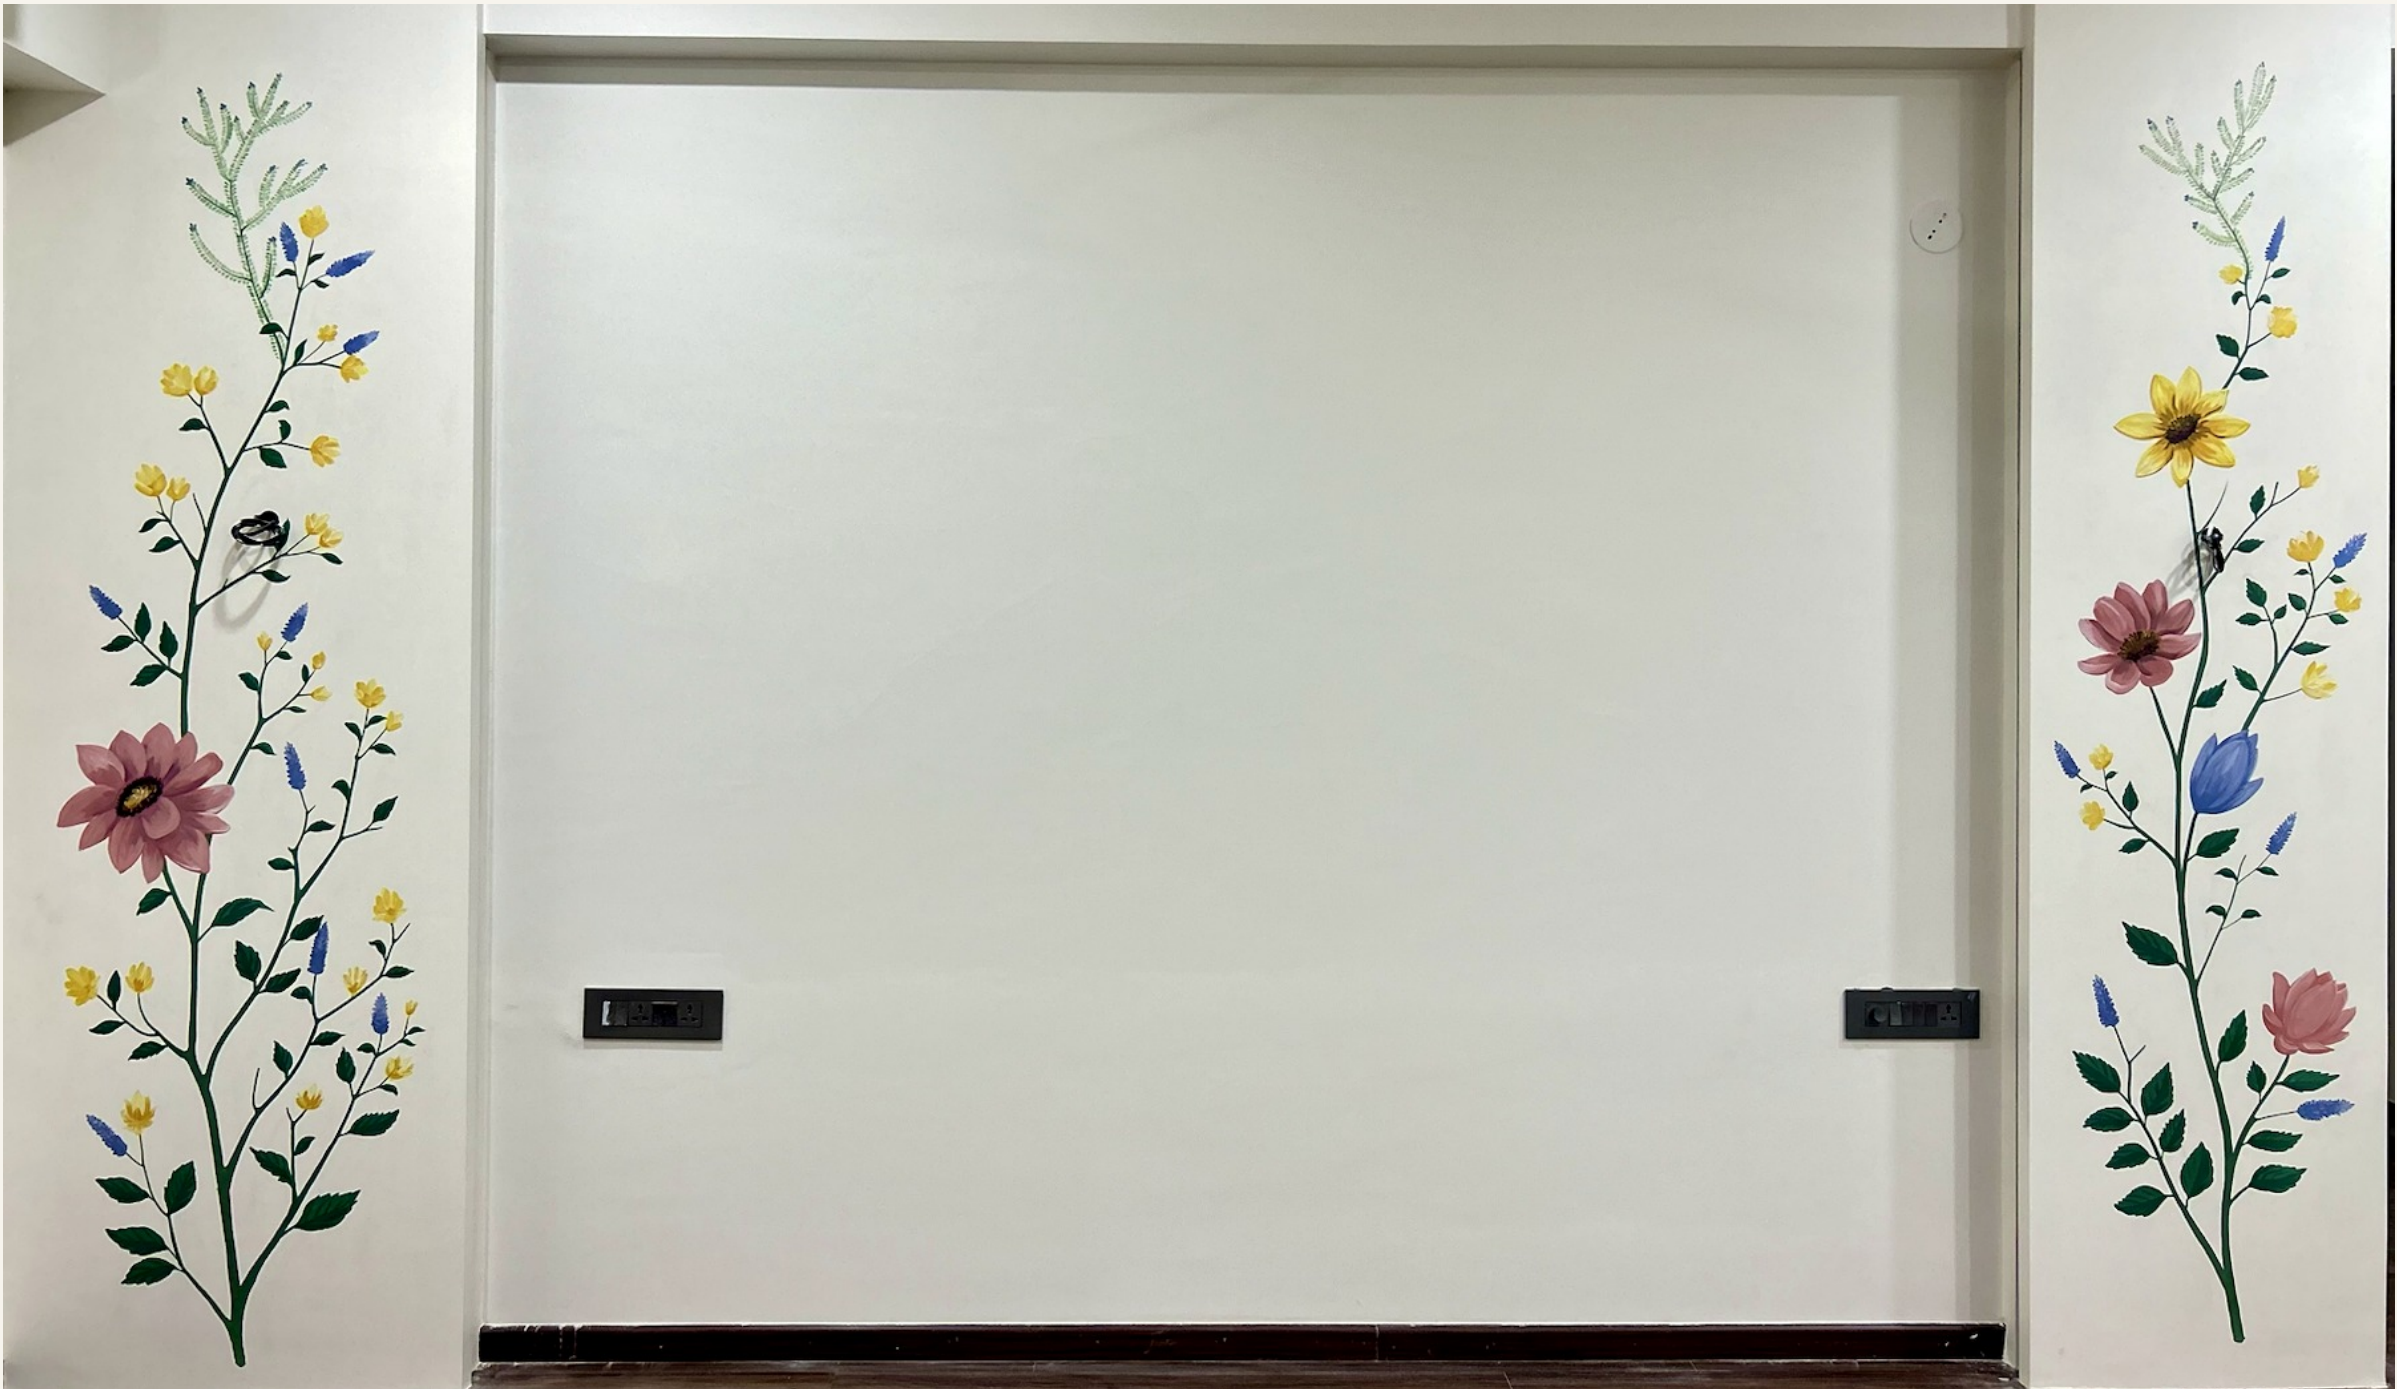

ILLUSTRATED WARDROBE

DRAWING WITH THE WALL.

Fine stems, loose colour and deliberate breathing room turn an overlooked corner into a gentle focal point.

ART, BUILT INTO THE INTERIOR.

Motifs are scaled to mouldings, recesses, shutters and furniture so the artwork feels native to its setting.

RELIEF PANELS

GILDED NICHE

HAND-PAINTED DETAIL

ILLUSTRATED WARDROBE

COLOUR CHANGES THE TEMPERATURE.

A panoramic landscape becomes an atmospheric counterpoint to a quiet, contemporary interior.

PANORAMIC FLORAL MURAL

Composed to meet the horizontal line of cabinetry and preserve a clear reading distance across the room.

FROM LINE TO SURFACE.

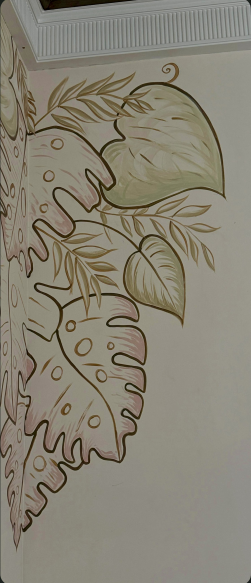

Each piece is resolved on site - adjusted to the proportion, texture and viewing angle of the room.
